5. [redacted] I returned to Darrell St. Claire, of the Senate Foreign Relations Committee staff, the copy of the transcript of the Agency's briefing of the Committee on the Cuban situation on 2 May. I advised St. Claire with respect to Senator Wayne Morse's question, on page 124 of the transcript, to Mr. Bissell as to who had given the speech before the Commonwealth Club in California on 18 November 1960, that the speaker had been the Inspector General, Mr. Kirkpatrick, not General Cabell. (Mr. Bissell had speculated that the speech might have been given by General Cabell but said that he was not certain.) I told St. Claire that if the Committee had any questions of a general nature concerning the Agency appearance we would be glad to respond. He said he thought there would be none and added that he would make the notation regarding Mr. Kirkpatrick's speech on the original of the transcript.

7. [redacted] Talked with George Murphy, on the staff of the Joint Committee on Atomic Energy. Murphy raised again the matter of the Committee inquiry to us regarding possible disclosure of Restricted Data in [redacted] Murphy reviewed the Committee's letter and our response on this and concluded that although our letter did not give a final answer on this, we were committed to inform the Committee if we should subsequently learn of any disclosure. I agreed with his conclusion on this. We discussed briefly the Chairman's letter requesting a copy of NIE 11-9, the estimate on Soviet nuclear testing and I advised him that they should have an answer within the next few days. I pointed out some of the problems involved in getting these estimates printed and in the hands of the Committee immediately after the estimate has been agreed upon but indicated that we would try to keep them more closely informed by telephone when these estimates were being prepared. Murphy felt that this would be helpful.
